STEP 1: FINANCIAL FREEDOM FOUNDATION

Financial Freedom is a Gift and God-given Right

Freedom is a gift that belongs to every human being on this planet and Financial Freedom is part of our God-given right and your **Universal Divine Purpose** in life: You are BLESSED! Be fruitful, multiply, replenish the earth and subdue it.

Financial Freedom is *supposed* to be the natural state you exist in as you:

1. Walk in your divine **purpose**:
 - a. You are BLESSED! Be fruitful, multiply, replenish the earth and subdue it.
2. Passionately pursue your unique **calling** in life
3. Optimize your **talents** by diligently develop your **skills**
4. **Share** your talents with the world

Even if you don't know what your calling is, at least now YOU KNOW what your purpose in life is: to be a blessing. Our life's journey is really an adventure where we search for and discover what our unique calling in life is and then manifest our Universal Divine Purpose through our gifts and talents.

Commit to Excellence

Regardless of where you are in life right now, if you perform your job diligently and to the best of your ability, you will discover your calling in life and experience Financial Freedom. Many people complain about their current job or financial situation and it creates struggle in their life. Being grateful for where you are and approaching everything you do with an attitude of excellence and gratitude is the key to getting on your Financial Freedom road and getting financially free.

When you discover your calling, it will open up doors for you to experience life on a level many will only ever dream about. Why? Because most will not accept these simple truths. Regardless of this fact, Financial Freedom is still for everyone and anyone that can receive this beautiful gift. It puts everyone on a level playing field.

Financial Freedom is the Highest Form of Self Expression

You can truly be who you were created to be when there are no limitations on:

- WHO you want to be
- WHAT you want to have
- WHAT you want to do
- WHERE you want to go
- WHEN you want to do it

Financial Freedom is a Work-Optional Financial Status

Another keystone signature of being Financially Free is the ability to live off of your earned income in your bank accounts without needing to work for the rest of your life.

Financial Freedom is a Mindset

Once you accept that Financial Freedom is yours, then you must renew your mind to this way of thinking. Most people are living paycheck to paycheck with less than \$1500 in their bank account. Their predominant thoughts are about not having enough.

They are limited in who they are, what they want to do, where they want to go and when they want to do it. Most continue to focus on the situation they are in today which becomes the same tomorrow and the next day.

In order to begin seeing your life transition into one that is on track for Financial Freedom, you'll have to invest time focusing on Financial Freedom more than your current financial situation.

Knowing what you want + Vision = Financial Freedom

Since most people who aren't succeeding financially are focusing on what they don't want then it would make sense that developing a Financial Freedom Vision will make you successful financially.

Some people just don't know what they want because they either don't feel they deserve it or just genuinely don't know they can have it.

As you begin to develop your Financial Freedom Vision you will identify what you really want in life and spend time every day meditating on this vision. This process is a creative process that will initiate new memories in your mind based on this Vision. Eventually, you will see your life start to conform itself to this Financial Freedom Vision in the most amazing way.

Benefits of Having a Financial Freedom Vision

- The Financial Freedom Vision will become your new financial baseline instead of what you are experiencing now.
- It will direct your focus to areas that you may not be aware of which exist in the mind of a financially free person.
- It will help you change your focus so that your money habits will reflect those of someone that is financially free.
- It will help you expand your ability to receive all that you were destined to receive.
- Finally, it will help you manifest Financial Freedom

STEP 2: DEVELOPING THE VISION

If you get a thought that doesn't line up with your Financial Freedom Vision, take a deep breath and count backwards 5-4-3-2-1 and take a moment to review your Vision again.
